

# ARBOR ACRES

Date: January 5, 2021  
To: Apartment and Home Residents and Advantage Members  
From: Andrew Applegate, President/CEO  
RE: **COVID-19 Vaccinations**

I am pleased to announce three pieces of good news!

1. Vaccination of Arbor Acres Artists has begun today!
2. Vaccination of Strickland and Arborview residents has also begun today with Asbury Place residents receiving the vaccine next Tuesday, January 12<sup>th</sup>.
3. We have secured three dates for apartment and home residents and Advantage Members!

The first clinic will be **January 22<sup>nd</sup>**, with the follow-up dose administered on **February 19<sup>th</sup>**. Also, on **February 19<sup>th</sup>** CVS will administer the first dose for those who did not receive their vaccination on January 22<sup>nd</sup>. Those who receive their first dose on **February 19<sup>th</sup>** will have their second dose administered on **March 19<sup>th</sup>**. No first round vaccines will be administered on **March 19<sup>th</sup>**.

We just received this information about 15 minutes prior to the writing of this memo and we do not have times finalized, though we have already reserved Piner Hall. As soon as we have final details firmed up, I will provide them. There is paperwork that you will need to fill out and return to Joel Motsinger prior to the clinics so we can order the appropriate number of doses. That paperwork will be placed in your cubbies with extra copies available at the Concierge Desk. For Advantage Members, a member of the marketing team will get you a copy of the form and will provide instruction on how to return it.

More information to come as we receive it!
